

The Breed *Ray* and *Alton* Timepieces

To Set:

- 1) Pull the crown out two clicks.
- 2) Rotate the crown clockwise till the day indicator displays the day *before* the current day.
Example: if today is Wednesday, set the day indicator to Tuesday.
- 3) Rotate the crown clockwise till the hour hand reaches the 12 o'clock indicator.
- 4) Continue rotating the crown clockwise till the date indicator advances one position.
- 5) Rotate the crown clockwise till the current time is displayed, following these statutes:
 - For AM hours: do not advance the hour hand past the 12 o'clock indicator.
 - For PM hours: advance the hour hand past the 12 o'clock indicator once.
- 6) Push the crown in one click.
- 7) Rotate the crown clockwise till the moon phase sub dial reflects the appropriate orientation.
- 8) Rotate the crown counterclockwise till the date indicator rests above the current date.
- 9) Push the crown in one click – manipulation of the crown will no longer be required.
- 10) Utilize the button above the crown to adjust the month indicator.
