

The MOS Antwerp and Sao Paulo Timepieces

(AT101 - AT105 / SP101 - SP107)

Setting Instructions:

- 1) Pull the crown out one click.
- 2) Set the current time by rotating the crown clockwise.
 - Reference the 24 hour sub dial to ensure AM/PM hours are observed accordingly (0-12=AM/12-24=PM).
- 3) Push the crown in one click to commence timekeeping.
- 4) Set the day of the week indicator by pressing *Button A* until the correct value is displayed.
- 5) Set the date indicator by pressing *Button B* until the correct value is displayed.

Note: Setting the time to AM / PM accordingly ensures that the date indicators change at midnight rather than noon. If the date indicators are changing in the afternoon advance the hour hand one full rotation (12 hours), then reset the date indicators as necessary.

Water Resistance Guidelines

5 / 10 ATM - short duration and low depth resistance only. Not suitable for extended swimming periods or bathing. Not suitable for diving. **Note:** Manipulation of the crown or buttons while the watch is in contact with water will negate the rated water resistance as water penetration may occur.
